COLLECTION 2026

Flower Catalogue

Naturally Distinct. Elegantly Grown in the Highlands of Kenya.

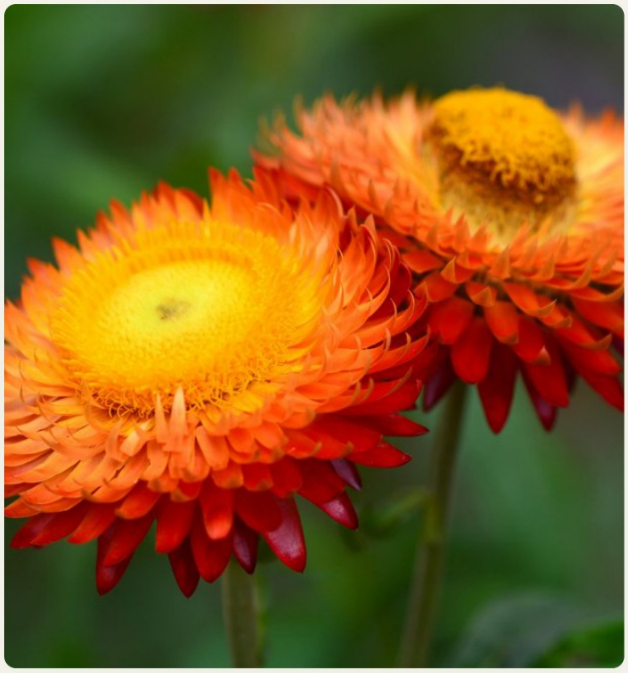

PREMIUM CUT FLOWERS & FILLERS

GROWN AT ALTITUDE · KENYA

Grown with care, cut for the world

Wirap Fleurs Limited is a Kenyan grower of premium summer flowers, cultivated at altitude in the cool, clear air of the Kenyan highlands. The elevation, steady sunlight and rich volcanic soils give our blooms their strong stems, true colour and remarkable vase life.

Every variety in this catalogue is selected for export-grade quality — flowers that travel well and arrive fresh, ready to perform in bouquets and designed arrangements across the world.

- Premium cut flowers & distinctive fillers
- Export-grade stems with long vase life
- Highland-grown for colour and form
- Contact us for seasonal availability

Helichrysum

Helichrysum bracteatum · Strawflower

Papery, jewel-toned blooms that hold their shape and colour long after cutting. Prized for exceptional vase life and as a premium dried flower, Helichrysum brings warm texture and lasting brilliance to export bouquets.

VASE LIFE	7–14 days (dries beautifully)
COLOURS	Gold, copper, rose, crimson
BEST FOR	Dried & textured bouquets

Dianthus Kiwi Mellow

Dianthus 'Kiwi Mellow'

Green, textured Dianthus heads with strong stems and excellent vase life — valued for its reliability and elegance in premium bouquet work.

VASE LIFE	14–21 days
COLOURS	Fresh green
BEST FOR	Premium bouquet work

Vase life is indicative. Confirm colours and availability with our team.

Craspedia

Craspedia globosa · Billy Buttons

Often called billy buttons or drumstick flowers, Craspedia is a cheerful, quirky bloom known for its bright, round, yellow flower heads that add a playful accent to any arrangement.

VASE LIFE	10–14 days
COLOURS	Bright golden yellow
BEST FOR	Playful accents & texture

Chrysanthemums

Chrysanthemum morifolium

Dense, layered blooms in a wide palette, among the most dependable cut flowers for longevity. Symbolising joy, longevity and friendship, they lend volume, structure and lasting freshness to mixed and export arrangements.

VASE LIFE	10–18 days
COLOURS	Wide palette
BEST FOR	Volume & structure

Vase life is indicative. Confirm colours and availability with our team.

Matthiola

Matthiola incana · Stock

Known for its rich fragrance, soft pastel colours and tall, elegant spikes. Stock symbolises lasting beauty, happiness and romantic devotion, adding scent and height to designed arrangements.

VASE LIFE	7–10 days
COLOURS	White, rose pink, deep rose
BEST FOR	Fragrant feature spikes

Dill

Anethum graveolens

A delicate filler with fine green stems topped by bright yellow umbels. Its airy structure and vibrant colour add lightness and contrast to mixed bouquets — a favourite for export floral designs.

VASE LIFE	7–10 days
COLOURS	Fresh green & yellow
BEST FOR	Airy filler & contrast

Vase life is indicative. Confirm colours and availability with our team.

Painted Craspedia

Craspedia globosa · Tinted

Naturally strong Craspedia stems enhanced with vibrant, long-lasting colour. Painted Craspedia adds bold accents and unique texture to modern bouquets and export floral designs.

VASE LIFE	10–14 days
COLOURS	Assorted vibrant tints
BEST FOR	Bold modern accents

Moluccella

Moluccella laevis · Bells of Ireland

Prized for its tall spires of delicate green bell-shaped calyces. A striking architectural filler, Bells of Ireland add height, fresh colour and a touch of good fortune, with excellent vase life for export floral work.

VASE LIFE	7–14 days
COLOURS	Fresh calyx green
BEST FOR	Architectural height

Vase life is indicative. Confirm colours and availability with our team.
